

APPENDIX A - Influenza Immunization Rates in Hospitals

Hospital Staff† Influenza Immunization Rates London and Middlesex County as of: January 17, 2013

Facility	Percent of Staff† Immunized (%)
Four Counties Health Services	59.3
LHSC - South Street*	56.6
LHSC - University Hospital*	55.9
LHSC - Victoria Hospital*	56.6
Parkwood Hospital	62.6
RMHC London	59.7
St. Joseph's Hospital	50.7
Strathroy Middlesex General Hospital	53.9
<i>Median**</i>	<i>56.6</i>
<i>Minimum</i>	<i>50.7</i>
<i>Maximum</i>	<i>62.6</i>

NOTES

† Includes employees who receive a direct paycheck from the facility, regardless of clinical responsibility or patient contact. Where available, this also includes licensed practitioners such as physicians, nurse practitioners, midwives, etc., who do not receive a paycheck directly from the facility.

* Excludes physicians because the LHSC system does not separate physicians based on site. Among LHSC (all sites) physicians, 78.1% reported that they received influenza immunization.

** Median is the middle number among all numbers when they are ordered from lowest to highest. Half of the hospitals sites have percentages above this value, and half of the hospital sites have percentages below this value.
