

EXECUTIVE SUMMARY

Our Interim Strategic Direction

The Middlesex-London Health Unit (MLHU) is proud to present the 2023-2024 Provisional Plan, which provides our interim strategic direction for the next two years. The MLHU developed our 2021-2022 Provisional Plan to provide strategic direction during the ongoing COVID-19 response, while supporting recovery from the pandemic.

Due to the evolving context of public health post-COVID-19, the 2023-2024 Provisional Plan once again builds on our ongoing priority areas, while setting new goals to outline where we want to be in two years and articulating the direction that we will take to get there. The Plan also outlines the initiatives for how we plan to specifically move forward, until a full Strategic Plan is developed for 2025-2029.

Our Vision, Mission and Values

As part of the 2015-2020 Strategic Plan, vision, mission and values statements were developed that are still relevant to our organization and to our work. Our vision articulates what we would like our community to achieve over the long-term; our mission is the declaration of our organization's core purpose; and our values are the beliefs and principles that will guide us.

VISION:

People Reaching Their Potential

MISSION:

To promote and protect the health of our community

VALUES:

Collaboration Integrity Empowerment Striving for excellence Health Equity

Speaking the Same Language: 2023-24 Provisional Plan Terminology

As a part of articulating the MLHU's strategic direction over the next 2 years, it is important to ensure that we are speaking the same language as we plan to advance the work of public health in our community. Through the 2015-2020 Strategic Plan development process, four priority areas were identified using the balanced scorecard strategic planning model. Under each priority area, we have identified Strategic Goals, Directions, Initiatives and Tactics. The definition for these terms as follows:

Goal: "Where we want to be"

Direction: "The path we're taking to get there"

Initiative: "How we plan to move forward along that path"

Tactic: "The specific activities and projects to make progress"

The following pages of this document identify these various strategic goals and plans.
