

Letter to Federal Ministers Freeland, Sudds, MacAulay, and Duclos
Re: Support for a Funded Healthy School Food Program in Budget 2024
October 27, 2023
Page 2 of 4

ensure a fully-funded universal student nutrition program; and

WHEREAS the federal government announced its commitment to work toward the creation of a National School Food Policy to help Canadian communities access healthy food in the [Food Policy for Canada](#); and

WHEREAS the Ontario Public Health Standards requires boards of health to support and participate with other partners in advancing school food policy and programming using population health assessment and surveillance, policy development; and

THEREFORE BE IT RESOLVED THAT the Board of Health for Public Health Sudbury & Districts support the [recommendations](#) submitted by the Coalition for Healthy School Food to the Government of Canada as part of advance consultations for Budget 2024:

Allocate \$1 billion over five years and collaborate with provinces, territories, and Indigenous partners to provide them with an initial \$200 million as soon as possible to fund existing school food programs; and

Create a separate School Food Infrastructure Fund grants program of, at minimum, \$50 million; and

Negotiate independent School Food Policy agreements with First Nation, Inuit and Métis leadership to ensure long-term and sustainable funding for Indigenous school nutritious meal programs; and

THAT the Board calls on the Federal Minister of Families, Children and Social Development for investment in healthy school food in Budget 2024, as presented in the House of Commons' online [e-4586](#) (Food and drink); and

FURTHER THAT The Board share this motion with relevant stakeholders, including Ontario Boards of Health and the Association of Local Public Health Agencies (aLPHa).

Currently, Canada is the only G7 country without a national school food program in place. In Ontario, the current student nutrition program faces inconsistent year-to-year funding, posing barriers to stability and sustainability and impacting full implementation of the program, such that all students can benefit from proper nourishment. The patchwork of funding sources compromises the quantity and quality of food served, and the availability of adequate infrastructure and human resources to offer a student nutrition program where all children are able to benefit from.

In the [Food Policy for Canada](#), the Government of Canada announced the intention to “engage with provinces, territories, and key stakeholder groups to work toward the creation of the National School Food Program”ⁱ. Despite this intention, there was no financial commitment made to establish a National School Food Program in the 2023 federal budget.
