The Honourable Sylvia Jones
Deputy Premier, Minister of Health
Delivered via email: sylvia.jones@pc.ola.org

Dear Premier Ford and Deputy Premier and Minister Jones:

Re: Universal, No-cost Coverage for all Prescription Contraceptive Options for all Ontarians

On September 6, 2023, at a regular meeting of the Board for the Timiskaming Health Unit, the Board considered the correspondence from Chatham-Kent Public Health regarding *Universal, No-cost Coverage for all Prescription Contraceptive Options for all Ontarians* and passed the following motion:

Motion 42R-2023):

BE IT RESOLVED THAT the Timiskaming Health Unit Board of Health recognizes the importance of access to contraception and menstrual products for all Ontarians; and

FURTHER THAT the Board encourages the Provincial government to cover the cost of all contraceptive options for all Ontario residents; and

FURTHER THAT the Premier of Ontario and Deputy Premier be so advised.

The Timiskaming Health Unit fully supports the above recommendation, and thanks you for your consideration.

Sincerely,

Stacy Wight, Board of Health Chair

Dear Premier Ford and Deputy Premier and Minister Jones:

RE: Universal, No-cost Coverage for all Prescription Contraceptive Options to all People Living in Ontario

At its meeting held on March 15, 2023, the Chatham-Kent Board of Health passed the following motion:

“That Administration prepare a letter of advocacy to the Provincial government encouraging them to cover the cost of birth control for all Ontario residents, and that this letter be copied to alPHa and any other appropriate partners.”

It is estimated that 30-40% of all pregnancies in Canada are unintended with those of lower socioeconomic status being one of the leading vulnerable groups impacted¹. Timely access to effective contraception directly influences the rate of unintended pregnancies. In Canada, cost is the leading barrier preventing individuals from gaining access to effective contraceptives^{2/3}. Cost should not be a barrier Ontarians face to obtain consistent and timely access to effective contraceptives.

OHIP+ has begun to address this issue in Ontario by providing no cost coverage for anyone under the age of 25 who is not covered by a private plan. This coverage needs to be expanded to all Ontarians without the restrictions put on those with private plans or those over the age of 24. Ontarians should have universal, no-cost, confidential access to effective contraceptives.

At the beginning of April, British Columbia started the journey of providing prescription contraceptive access equality for their province and we are advocating for Ontario in this journey.
